

*Announcing the*  
*21<sup>st</sup> Annual*  
National Environmental  
Monitoring Conference  
July 25<sup>th</sup> – 27<sup>th</sup> Conference  
July 28<sup>th</sup> – 29<sup>th</sup> Short Courses  
Wyndham City Center Hotel ■ Washington, DC

*The only EPA co-sponsored conference that facilitates an exchange among leaders in government, academia, and the private sector to discuss views on current events, policy, new monitoring technologies, and future directions for all environmental programs.*

*Working together to improve the quality of environmental information, facilitate the development and use of new monitoring technologies, and make compliance monitoring more cost-effective.*

*NEMC is sponsored by the Independent Laboratories Institute (ILI) in association with the American Council of Independent Laboratories (ACIL) under a cooperative agreement with the U.S. Environmental Protection Agency.*

*Independent Laboratories Institute*

# NEMC 2005

## National Environmental Monitoring Conference

**July 25<sup>th</sup> – 27<sup>th</sup> Conference**  
**July 28<sup>th</sup> – 29<sup>th</sup> Short Courses**  
**Wyndham City Center Hotel ■ Washington, DC**

NEMC provides the principal forum for addressing policy and technical issues affecting monitoring in all environmental media (i.e., water, air, soil, and wastes) and across all environmental programs.

Organized jointly by U.S. EPA and ACIL's Independent Laboratories Institute, the focus of this 21<sup>st</sup> annual conference includes new approaches for analyzing conventional and emerging pollutants in water, soil, and air as well as homeland security issues as they apply to environmental monitoring for terrorism agents.

### Conference Topics Will Include:

- ◆ *Homeland Security Continuous Monitoring Challenges;*
- ◆ *Analysis of Conventional and Emerging (e.g., Pharmaceutical and Personal Care Products) Pollutants;*
- ◆ *Advances in Electronic Data Deliverables (EDD);*
- ◆ *Advances in Implementing the Triad Approach and Documenting Measurement Uncertainty;*
- ◆ *Assessing Performance of New Methods Including Field Analytical and Screening Methods;*
- ◆ *Advances in Elemental Speciation;*
- ◆ *Advances in Determination of Perchlorate; and*
- ◆ *RCRA Inorganic Methods.*

### Training Courses Will Include:

- ◆ *SEDD for Laboratory Users;*
- ◆ *Using SEDD Files as Input to Automated Data Review Programs; and*
- ◆ *QA for Environmental Sampling.*

The conference brings together scientists, analysts, engineers and managers from Federal and State agencies, the regulated community, and from the laboratory and engineering support communities in an informal setting in our nation's capital. It includes technical sessions, a plenary session, training courses, exhibits, and networking opportunities.

**To register, go to [www.nemc.us](http://www.nemc.us) and click on Conference Registration.**

QUALITY TRAINING FOR THE  
LABORATORY COMMUNITY

NEMC is sponsored by the Independent Laboratories Institute (ILI) in association with the American Council of Independent Laboratories (ACIL) under a cooperative agreement with the U.S. Environmental Protection Agency.
